GENERAL INFORMATION

This handy little booklet has been prepared to enable you to select dahlias with ease, by weighing only their most prominent characteristics.

ORDERS—Orders are booked as received, and stock reserved accordingly. Those ordering early have a better chance of obtaining what is desired.

SUBSTITUTES—We do not substitute unless authorized. Customers' wishes regarding a second choice will be appreciated and closely followed.

PRICES—Prices quoted in this catalogue apply to the usual division of a clump, each division guaranteed to contain one or more eyes.

TERMS—Our terms are cash with order. We do not run charge accounts. If we did, our prices would necessarily be higher than here quoted.

DISCOUNTS—On 5 divisions of one variety deduct 10%; on 10 of one variety deduct 15%; on orders of \$10.00 or more, regardless of varieties, deduct 20%.

REMITTANCES—Payment may be made in any way desired, though cash sent by mail will be at the risk of the sender unless registered.

DELIVERIES—Dahlias, Cannas and Gladioli are delivered free, by parcel post, between May 1st and 15th, to any post office in the U. S. or Canada.

GUARANTY—All stock guaranteed true to name and in good condition, but we do not accept responsibility for cultural failures of customers.

LOCATION—The Martindale Nursery is located at Martindale, in Columbia County, N. Y., on the Harlem Division of the New York Central Lines, and on New York State Highway No. 23.

NEW YORK OFFICE—For the convenience of those residing in the vicinity of New York City, inquiry may be made at any time in Suite 2002, at 18 East 41st Street, Manhattan. Mervin J. Spaid, Director of the Nursery, will be at the New York Office until April 4th, and again from April 20th to 30th, also at intervals throughout the season.

DAHLIAS

Dahlias listed in this catalogue are classified according to the form of their flowers, in conformity with designation adopted by the American Dahlia Society, as follows:

B, Ball	S-C, Semi-Cactus
C, Cactus	P, Peony-Flowered
S, Single	F-D, Formal Decorative
I-D, Informal Decorative	

AMAZON—(I-D) Large flower, of bright coral pink, with suffusion of gold on inner petals. Beautiful coloring and a wealth of bloom. 40c

AMBASSADOR—(C) Color, soft yellow buff, shaded salmon pink. Flowers extra large, stems strong, excellent keeper, very prolific. 50c

AMERICAN TRIUMPH—(C) Incurved cactus, oriental red, high full centers, long straight stems. Tall plant, profuse bloomer, best keeper. 50c

AMETHYST—(I-D) Splendid growing habits, medium to large flower, beautiful amethyst shade. Pronounced one of the best among dahlias. 50c

AVALON—(I-D) A good plant, bushing well and blooming freely. Flowers of clear canary yellow, with full centers; distinct and pleasing. 40c

BARBARA REDFERN—(I-D) Tall vigorous bush, with immense flowers of great depth. Color, a beautiful harmonious blending of old rose and gold. 50c

BASHFUL GIANT—(F-D) One of the largest and best. Color, apricot, with buff and gold suffusion. A great flower for exhibition purposes. 50c

BEAUTY PAGEANT—(P) A massive, peony-flowered dahlia, with beautiful blendings of salmon pink and amber shades. Fine stems. 50c

BEAUTY SUPREME—(F-D) Stately plant, of good strong branches and stems. Blooms large, color lavender, very pleasing, and a good keeper. 50c

BILLIONAIRE—(P) One of the most satisfactory peony-flowered dahlias. A gigantic flower, of old gold and orange shades, and very attractive. 75c

BLACK TOP—(F-D) A very vigorous variety that produces freely. Color a dark violet carmine. Attractive because of its being different. 40c

BLUE JAY—(I-D) A violet blue, with very fine growth for cut flowers. About as near blue as any dahlia that is now grown. 30c

BONNIE BLUE—(F-D) A good grower and free bloomer. One of the best all-purpose dahlias. Popular near-blue color, blending very satisfactorily. 30c

- BRILLIANCE**—(F-D) Very attractive, and of good habits. Face of petals pure red orange, reverse old gold. Large and exceptionally striking. 75c
- CALVIN COOLIDGE, Jr.**—(F-D) Large stately plant, profuse bloomer. Color rose pink, suffused salmon, edged gold. Excelling Jersey Beauty. 50c
- CASPER G. WARE**—(F-D) Medium height, vigorous grower, profuse bloomer, ideal flower. Color a bright, pleasing, silvery, violet rose. 50c
- CATHERINE WILCOX**—(F-D) Beautiful pearly white flowers tipped with pink. Unusual in appearance, and a dependable variety in every way. 50c
- CHARM**—(F-D) Free flowering, long-stemmed dahlia, of a fine russet orange shade. Blooms of large size, with deep full centers. 50c
- CHARMER**—(I-D) Plant of medium height and branching freely. Flowers of medium size, of rose pink and orange shades. Good for cut flowers. 30c
- CHAUTAUQUA SALUTE**—(F-D) Medium tall and sturdy plants, strong stems, abundance of large pure white flowers. One of the best whites. 50c
- CITY OF TRENTON**—(I-D) Tall plant, dark green foliage, splendid grower, very large flower. Beautiful bronzy red, shaded salmon. 75c
- COL. CHARLES A. LINDBERGH**—(C) A huge hybrid cactus variety, of beautiful rose overlaid old ivory, shading off to pale gold at center. 75c
- COPPER KING**—(F-D) Sturdy grower, perfect stem, very large and deep flower. A wonderful arrangement of copper, yellow and light red. 75c
- COUNTESS OF LONSDALE**—(C) Probably the most popular cactus dahlia ever originated. Color a delicate apricot, shading to carmine pink. 50c
- CRAWLEY BEAUTY**—(S) Plant of medium height, bearing single flowers striped light red and dark maroon. Unusual in appearance. 50c
- DAKOTA**—(F-D) Very large exhibition flowers of good form. Autumn colorings of deep tones of rich coral red with coppery suffusion. 50c
- D. M. MOORE**—(F-D) Colossal flowers, full and free. Color a silky and very dark maroon, almost black. 50c
- Dr. H. L. TEVIS**—(F-D) Magnificent flowers, on large stout stems. Color a beautiful shade of salmon rose, suffused with old gold. 50c
- DWIGHT W. MORROW**—(I-D) An immense cardinal red dahlia, unusually rich in color and quality, and greatly admired by everyone. \$1.00
- ELITE GLORY**—(F-D) Sturdy plant, heavy foliage, strong stems. Large flowers of brilliant glowing red, with good keeping qualities. 60c
- ELIZABETH SLOCOMBE**—(F-D) Flowers large, of a purplish-garnet color, and very effective. One of the best of its color and class. 50c

FLORAL PARK JEWEL—(F-D) A sweet little flower, grown on a short to medium plant. Color red, with petals of some flowers tipped white. 30c

FORT MONMOUTH—(I-D) One of the giants among dahlias, and very prolific. Rich crimson red, with violet blue at tips of petals. 75c

FUTURITY—(F-D) Medium plant, branching freely. Small to medium flower, of beautiful salmon rose. Useful for cut flowers. 30c

GALLI CURCI—(I-D) Strong, medium-tall grower. Flowers large, unusually deep, with petals pointed and wavy, of brilliant salmon orange. \$1.00

GLORIANA—(F-D) Medium to large flower of pure old gold with slightly reddish glow and darker center. Long stems, fine for all purposes. 30c

GOLDEN GOBLIN—(F-D) Sturdy, vigorous habits, perfect stems, good bloomer. Flowers large, of rich old gold color, and very pleasing. 75c

HALO—(F-D) Large and broad plant, branching freely. Color a pure light sulphur. One of the most profuse bloomers ever produced. 30c

HARVEST MOON—(F-D) A dwarf plant, with large flowers held high, and petals curved backward. Color deep sulphur, or primrose yellow. 50c

HEART OF GOLD—(I-D) Flower with creamy light yellow center, shading out gradually to a soft salmon pink. Very vigorous and attractive. 50c

HEART'S DESIRE—(I-D) A flower of medium size, with very unusual tints of light salmon rose, and variations in shadings. Good stems. 30c

HELEN IVINS—(F-D) Tall, strong, vigorous and free-flowering. Beautiful orchid-lavender or light rosolane purple. Stems extra long. 50c

HERCULES—(F-D) A vigorous variety of good height, fine stems, and large heavy flowers, full and deep. Color, tangerine and deep yellow. 50c

JACK ROSE—(F-D) Dwarf plant, early and profuse bloomer. Rich velvety crimson, overlaid violet. Small flower, but each plant a real bouquet. 30c

JANE COWL—(I-D) An ideal dahlia, fairly tall, with dark green foliage. Deep massive blooms of bronzy buff, with old gold blending. 50c

JERSEY'S BEACON—(F-D) Vigorous in growth, foliage dark, stem excellent. Very large flower of Chinese scarlet, with buff reflex. 50c

JERSEY'S BEAUTY—(F-D) Tall and stately, long stems, large blooms, splendid keeping qualities. The standard, popular, true salmon pink. 30c

JERSEY'S KING—(F-D) Large perfect flowers, of a brilliant oriental red with carmine suffusion. A favorite everywhere it is grown. 50c

JERSEY'S MAMMOTH—(I-D) Huge flowers of rich golden mahogany. Recommended only to those who want the very largest novelties in dahlias. 75c

JUNIOR—(I-D) Short to medium but sturdy plant. Large flowers, pure lavender, with short stems. Very attractive for every garden. 50c

KENTUCKY—(F-D) Thrifty grower, prolific bloomer, and increasingly popular. Large, brilliant orange, shading to grenadine pink. 50c

KING OF COMMERCE—(F-D) Tango and gold colors. Flower of medium size, with perfect stems. Especially useful for cut flowers. 30c

MARKET QUEEN—(D) A medium-sized dahlia of the decorative type. Color, bright scarlet red, tipped white. Recommended for cut flowers. 30c

MARMION—(I-D) Sturdy, strong-growing plant, stems good, blooms large, centers full. Pure primrose yellow, with bronze suffusion. 50c

MARTINDALE SWEETHEART—(S-C) Stately, vigorous plant, of medium height. Flowers of purest white and fine form. Improvement over "Sweetheart." 50c

MARYLAND'S ORANGE—(S-C) Color a beautiful tangerine orange, of good form and with long stems. One that is surely worth considering. 50c

MASTERPIECE—(F-D) Strong plant, good producer. Flowers of medium size, of amber, yellow and orange shades. A very pleasing combination. 30c

MELODY—(I-D) Medium size plant with a medium size flower. Color a soft light yellow, with petals broad and slightly wavy. 30c

MILLIONAIRE—(F-D) One of the largest and most perfectly formed decorative dahlias. Delicate lavender, with faint pink sheen overcast. 75c

MONMOUTH BEAUTY—(F-D) Very tall, sturdy grower, large blooms, long stiff stems. A rich salmon orange, of lustrous metallic golden sheen. 50c

MONMOUTH CHAMPION—(F-D) Strong vigorous grower, large flowers, rigid stems, good producer. Color a brilliant orange flame. 50c

MR. CROWLEY—Compact habit of growth, flowers large and fine. Color a luminous shade of salmon pink; base of petals golden. 50c

MRS. I. DE VER WARNER—(F-D) Sturdy bush, good stems, full blooms. Color Mauve pink or orchid lavender. Very popular everywhere. 30c

NATURE'S MASTERPIECE—(I-D) Everything in one. A rich combination of old rose, cinnamon and metallic bronze, blended in one large bloom. 75c

NAVAJO CHIEF—(I-D) Medium to tall growth, foliage very dark, long stiff stems, blooms plentiful. Dark red, with pure white tips. 50c

OREGON BEAUTY—(B) A large and fluffy ball-shaped flower, of brilliant oriental red, with golden sheen and garnet suffusion. 30c

OREGON SUNSET—(P) Very deep yellow, with rich red markings. Healthy in growth, with very good stems for cutting purposes. 30c

OUR COUNTRY—(I-D) A large and very attractive bi-colored dahlia of deep purple, tipped with white for one-half to one inch. 60c

PRIDE OF CALIFORNIA—(F-D) Tall and vigorous grower, and a good producer. Brilliant, glowing cardinal red. The best of its kind. 30c

PRIDE OF STRATFORD—(I-D) Large flowers, of a brilliant shade of cadmium orange with deep reverse. Vigorous plant and a free bloomer. 50c

PRINCE OF PERSIA—(I-D) Most beautiful of large red dahlias. Bright, striking, iridescent, rich glowing cardinal, of great depth of bloom. \$1.00

PURITY—(F-D) Pure white, well formed dahlia, of medium size. Petals broad and slightly recurved. Free bloomer and good everywhere. 30c

PURPLE GIANT—(P) A large peony-flowered royal purple, of thrifty growth and good habits. Commands attention wherever grown. 50c

PURPLE QUEEN—(S-C) A wide-petaled cactus, of a lovely deep purple shade. A vigorous grower and a very free bloomer. 30c

QUEEN MARY—(F-D) A good dependable variety of medium size. Color a soft shade of pink, with a light full-rounded center. 30c

QUEEN OF THE GARDEN BEAUTIFUL—(F-D) Enormous flower, with wide petals of primrose yellow. Interesting, distinctive, satisfying. 50c

QUEEN VICTORIA—(B) A show or ball dahlia of yellow color. Attractive on account of its being different from the usual in form. 30c

RED BIRD—(I-D) Tall, straight, vigorous plant. Blooms large and shaggy, of crimson maroon. Unusual beauty, fine form, perfect habits. 75c

RED GIANT—(F-D) A large decorative dahlia of beautiful flag red. So vigorous, prolific and fascinating that everyone should have it. 50c

REGAL—(I-D) Gigantic, well-formed flower of a pleasing combination of bronze and dull old rose, giving the effect of burnished copper. 50c

ROBERT SCOTT—(F-D) Sturdy growth, large and well-formed flowers, long stems, free blooming. Apricot yellow, with rose shadings; great depth. 50c

ROMAN EAGLE—(F-D) Large exhibition dahlia, of a flaming, brilliant, burnished copper color. Vigorous plant of medium height, bushing well. 50c

ROSE—(B-D) Ball-shaped flowers of medium size, on long stems, with tubular petals regularly placed. Color rosy purple shade. 30c

ROSE FALLON—(F-D) Enormous flowers, carried upright on stiff stems. Pleasing shades of amber, russet and salmon, forming a perfect flower. 50c

ROSETTA—(I-D) A variegated rosy red of large size with full center, the whole resembling a huge rosette, of fascinating qualities. 50c

SAGAMORE—(F-D) A medium to tall bush, with medium large blooms. Color amber gold, shaded salmon-rose and orange buff. A perfect flower. 50c

SALEM PRIDE—(F-D) Compact, low-growing bush, with large and very spectacular blooms. Color reddish violet, suffused and lightly streaked white. 75c

SALMON SUPREME—(F-D) Vigorous, free-flowering, wonderful in color and form. Glistening, salmon-orange-pink blooms, held proudly erect. 75c

SHOWER OF GOLD—(F-D) Golden bronze blooms of medium size, with petals of chrysanthemum type. A good garden variety, useful for cut flowers. 30c

SISKIYOU—(C) One of the largest ever produced. Color, mauve pink, stems strong, flowers held erect. A constant prize winner everywhere. \$1.00

SNOWDRIFT—(F-D) Immense, pure glistening white flowers of perfect form. Low to medium bush, a good bloomer, and very satisfactory. 50c

SPLENDOR—(F-D) Exquisitely rich coloring and splendid habits make this a really prized acquisition. Wine crimson, edged clear purple. 75c

SQUARE DEAL—(F-D) Medium height, unusually free-blooming, good stems. Color amber, shading out to soft salmon pink. 30c

SUNSET GLOW—(C) Flower of medium size, scarlet at the base, with tips similar to Red Cross. Very free flowering, with good stems. 30c

SWEETHEART—(S-C) A dwarf plant, branching freely. Color purest white, with twisted and curled petals, forming an attractive and pleasing flower. 30c

THE COMMODORE—(I-D) A very large and spectacular lemon yellow, overlaid with a golden sheen. Plant of medium height, and very sturdy growth. 75c

THE EAGLE—(C) Large exhibition dahlia of attractive formation. Color, silver yellow, petals long and narrow, forming chrysanthemum-like flower. 50c

THE GRIZZLY—(I-D) A monstrous, shaggy-petaled, dark velvety maroon. A bear for size and formation. One of California's most famous. \$1.00

THE MONSTER—(I-D) Immense in size of bloom and bush. Exceptional producer. Color, amber yellow, suffused orange and pink. Don't miss it. 75c

THE WORLD—(F-D) Rich, deep, rosy magenta, overlaid garnet, with silver shadings on edges of petals. Foliage thick, stems strong, flowers fine. **75c**

THOMAS A. EDISON—(F-D) Thrifty growth, stiff stems, free bloomer. Flowers large and most gorgeous. Color, a royal purple, with sheen of velvet. **75c**

TREASURE ISLAND—(F-D) Bush strong, of medium height, branching freely. Flowers large and deep, of bright apricot, with gold and rose shadings. **75c**

TRENTONIAN—(F-D) Large flowers, fine stems. Color a wonderful blending of reddish bronze, old gold and amber copper, described as "Indian Skin." **50c**

UNCLE SAM—(F-D) Tall and broad plant, with long stems. Large flowers, well faced, of bronzy gold and tan. Good for everybody's garden. **30c**

VALENTINO—(F-D) Enormous size, attractive form, beautiful coloring. True salmon pink, shading to cream at center. Medium height, prolific. **50c**

WATCHUNG WONDER—(I-D) Huge, spectacular variety, of unusual keeping qualities. Royal red, with a touch of gold at center. Always sensational. **\$1.00**

WILLIAM H. HOGAN—(F-D) Garnet red, tipped white. Strong plant, perfect habits, large flowers. One of the best fancy dahlias. **50c**

YANKEE KING—(I-D) Cornelian red, with rose reverse. Bush tall and vigorous, stems extra long. Large blooms, produced very freely. **75c**

YELLOW GIANT—(F-D) A very soft canary yellow, with petals somewhat curled. A decided acquisition for cut flowers. **30c**

YORK AND LANCASTER—(F-D) Plants medium to tall, foliage dark green, flowers of good size. Color, bright crimson, with heavy white tips. **30c**

ZULU—(F-D) Plant of low to medium height, many branches, scant bloom. Flowers small to medium in size, color almost black. **30c**

GARDEN DAHLIAS

Those who appreciate the old-fashioned garden varieties of dahlias, of compact form, may have their wants supplied in different colors, as follows:

Red	Purple	Salmon
Yellow	White and Lavender	
Price, 15c each.	All five for 60 cents.	

MIXED DAHLIAS

Good dahlias, attractively mixed, can be supplied without labels, in small quantity. It is very interesting to watch them develop into things of real beauty, not knowing what they will eventually be.

Price, 15 cents each. Ten for \$1.00

SEEDLING DAHLIAS

The desire of all dahlia lovers is not only to possess certain standard varieties and some recent introduc-

tions appealing to individual tastes in form and color, but to obtain something entirely new. This desire may be realized to the fullest extent at the Martindale Nursery, by choosing what best suits your fancy, then bestowing upon them names most dear to you. In September next there may be found 250 seedlings to choose from,—a rare opportunity indeed. Mark this on your calendar.

CANNAS

Cannas are classed among the most effective and economical plants for any garden, affording a gorgeous display of flowers, at little expense and care. We list below only worth-while cannas which produce really attractive flowers, in colors that command attention.

AMBASSADOR—Brilliant cherry-red flowers. Plants of vigorous growth, with bronze foliage.

APRICOT—Color a buff yellow base, overspread with salmon pink; very effective; green foliage.

CITY OF PORTLAND—A beautiful glowing pink; splendid bedder and profuse bloomer; green foliage.

EUREKA—The best white variety. Majestic in habit, free bloomer, green foliage.

GOLDEN EAGLE—Clear golden yellow; showy trusses held high, free bloomer, green foliage.

KING HUMBERT—A king among cannas. Majestic in growth, brilliant copper flowers, bronze foliage.

THE PRESIDENT—A gorgeous green-leaf variety, with large glowing scarlet flowers held high.

YELLOW KING HUMBERT—Conspicuous masses of golden yellow trusses, with contrasting crimson dots.

Prices: Any one of above varieties \$1.25 per doz. 2 doz. for \$2.00. One-half doz. of each, \$4.00.

MIXED CANNAS—Colors in great variety, recommended for bedding or for mass effect.

Price, \$4.00 for 50.

\$7.00 per hundred.

GLADIOLI

The stately habit and great variety of color found in the Gladiolus, commands for this flower a prominent place in every garden. Following are some of the best varieties, in the most desired colors:

AMERICA—Beautiful flesh pink, tinged with lavender. Large flowers, with round petals.

ANNIE LAURIE—Heavily ruffled flower, of delicate pink, overlaid with light rose. Strong grower.

CRIMSON GLOW—One of the best scarlet varieties. Large flower, of good form and vigor.

GIANT NYMPH—Very large, light rose pink, with creamy yellow throat. A very tall variety.

GOLD EAGLE—Fine deep golden yellow, slightly ruffled, but with no shadings. Called the best yellow.

LOS ANGELES—A beautiful grenadine or orange tinted pink. Known as the "Cut and come again."

LILY WHITE—A large snow-white flower, excellent grower, very early, and a heavy propagator.

PURPLE GLORY—Giant ruffled flower, of deepest velvety maroon, with almost black blotches.

VIRGINIA—Dazzling red, like a flaming torch. An extra fine gorgeous display, and in great demand.

Prices: Any one of above varieties 60c per doz. 2 doz. for \$1.00. One-half doz. of each, \$2.50.

MIXED GLADIOLI—A large number of varieties of all colors, making a gorgeous display.

Price, \$2.50 for 50 bulbs. \$4.00 per hundred.

FRENCH LILACS

The French or Hybrid Lilacs, named varieties of the species, have been produced by the efforts of European and American Hybridizers. They differ materially from the common lilacs in that their flower clusters are much larger and their fragrance more entrancing.

The following varieties, selected because of their enormous flowers and great variety of color, are offered in large quantities, in tree form (single stem), ranging from 5 to 7 feet in height:

<i>Names</i>	<i>Single Flowered</i>	<i>Colors</i>
	<i>Single Flowered</i>

Prince de Beauvau.....		Clear Lilac
Senateur Volland.....		Fuschsia Red
Viviand Morel.....		Blue Lilac
Waldeck Rousseau.....		Rosy Lilac, White Center

JAPANESE YEW

The Japanese Yew (*Taxus*) is one of the most useful and ornamental evergreens. It is disease free and very hardy. The foliage is dark green, waxed and rugged, with bright scarlet berries in the late summer. The upright type (*Taxus Cuspidata Capitata*) is of close and compact habit, and of this variety several thousand are offered, ranging in height from 2 to 5 feet.

For prices and appointments with reference to anything shown on this page, call on or address Henry S. Otto, of our New York Office, 18 East 41st Street, New York City.

ORNAMENTAL SHRUBS

Everyone knows and loves some ornamental shrub. From the syringa of grandmother's garden to the latest improved shrub that Botanical Science has been able to produce, each has a beauty and lovableness all its own. By a judicious selection of ornamental shrubs, the humblest cottage is glorified and the largest mansion made homelike.

We offer not only the following shrubs, but some of the more unusual things of rare beauty and charm. No separate catalogue is printed. Prices cheerfully given on application.

Almond	Euonymous	Hydrangea	Snowball
Althea	Forsythia	Jap. Quince	Snowberry
Deutzia	Honeysuckle	Mock Orange	Spirea
Dogwood			Weigela

EVERGREENS

Nothing can quite take the place of evergreens. In summer their stately dignified grandeur adds serenity to colors found in other vegetation, while in winter their cheerful freshness seems to say that spring will come again. In fact, evergreens possess an elegance and richness that add a wealth of charm and beauty not only to the home grounds but to every landscape visible to mortal eye.

In the Martindale Nursery may be found 70 varieties of evergreens, adapted to every use and condition. Some are of the tall-growing kinds needed for woodland plantings and for the purpose of forming the beautiful groves so much loved and sought for on large estates. Others are adapted for single specimens on lawns or in gardens, or for use in mass plantings or backgrounds. Still others are especially adapted for foundation plantings about the house or other buildings, while numerous varieties of dwarf and creeping evergreens constitute some of the very best and most attractive things that can be found for rock gardens.

The Martindale Nursery occupies but a limited area, but contains a wealth of nursery products in small quantities and at very reasonable prices. No catalogue of evergreens is printed, but full particulars and prices on anything desired will cheerfully be given on request.
